

B. F. Butler's Official Report to Gen. Wool.

U. S. FLAG SHIP MINNESOTA, Aug. 30.
GENERAL:—According to your orders I embarked on the transport steamer Adelaide and George Peabody 500 of the 20th Regiment New York Volunteers, Col. Webber commanding, 300 of the 9th Regiment New York Volunteers, Col. Hawkins commanding, 100 of the Union Coast Guards, Capt. Nixon commanding, and one company of the 2d U. S. Artillery, Lieut. Larned commanding, as a force to operate in conjunction with the fleet under command of officer Stringham against the Rebel forts at Hatteras Inlet.

We left Fort Monroe on Monday, at 1 o'clock P. M. The last ship of our fleet arrived at Hatteras Inlet about 4 o'clock Tuesday afternoon: such preparations as were possible for the landing were made in the evening, and at daylight next morning, dispositions were made for an attack upon the forts by the fleet, and for the landing of the troops. Owing to the previous prevalence of southwest gales, a heavy surf was breaking on the beach. Every effort was made to land the troops, and after about 315 were landed, including 55 marines from the fleet and the regulars, both the iron boats upon which we depended were swamped in the surf, and both flat boats stove; and a brave attempt being made by Lieut. Crosby, U. S. A., serving with the army as post-captain at Fort Monroe, who had volunteered to come down with the steamer Fanny, belonging to the army, to land in a boat from the war steamer Pawnee, resulted in the beaching of the boat, so that she could not be got off.

It was impracticable to land more troops, because of the rising wind and sea. Fortunately a twelve pounder rifled boat gun loaned us by the flag ship and a twelve pound howitzer were landed, the last slightly damaged. Our landing was completely covered by the shells of the Monticello and the Harriet Lane. I was on board the Harriet Lane, directing the embarkation of the troops by means of signals, and was about landing with them at the time the boats were stove. We were induced to desist from further attempts at landing troops by the rising of the wind, and because in the meantime, the fleet had opened fire upon the nearest fort, which was finally silenced and its flag struck. No firing had opened upon our troops from the other fort, and its flag was also struck. Supposing this to be a signal of surrender, Col. Webber advanced his troops a ready landed upon the beach. The Harriet Lane, Capt. Faunce, by my direction tried to cross the bar to get in the smooth water of the inlet, when fire was opened upon the Monticello, which had proceeded in advance of us, from the outer fort. Several shots struck her, but without causing any casualties, as I am informed. So well convinced were the officers of both navy and army that the forts had surrendered at this time that the frigate Cumberland and an offing. The fire was then re-opened (as there was no signal from either) upon both forts. In the meantime a few men from the coast guard had advanced upon the beach with Mr. Wiegell, who was acting as volunteer aid, and whose gallantry and services I wish to commend, and took possession of the smaller fort which was found to have been abandoned by the enemy, and raised the American flag thereon.

It had become necessary, owing to the threatened appearance of the weather, that all the ships should make an offing, which was done with reluctance from necessity, thus leaving the troops upon the shore, a part in possession of the small fort (about 700 yards from the large one) and the rest bivouacked on the beach, near the place of landing, about two miles north of the forts. Early the next morning the Harriet Lane ran in shore, for the purpose of covering any attack on the troops. At the same time a large steamer was observed coming down the sound, inside the land, with reinforcements for the enemy, but he was prevented from landing by Capt. Johnson, of the Coast Guard, who had placed the two guns from the ship and a six-pounder from the enemy in a small sand battery, and opened fire on the rebel steamer. At 8 o'clock the fleet opened fire again, the flag-ship being anchored as near as the water allowed, and the other ships coming gallantly into action. It was evident, after a few experiments, that our shot fell short an increased length of fuse was telegraphed, and firing commenced with shells of 16 seconds' fuse. I had sent Mr. Fiske, acting aid de camp, on shore, for the purpose gaining intelligence of the movements of the troops and of the enemy. I then went with the Fanny for the purpose of effecting a landing of the remainder of the troops, when a white flag was run up over the fort.

I then went with the Fanny over the bar into the inlet, at the same time the troops under Col. Webber, marched up the beach, and signal was made from the flag-ship to cease firing. As the Fanny rounded in over the bar the Rebel steamer Winslow went up the channel, having a large number of secession troops on board which she had not landed. We threw a shot at her from the Fanny, but she proved to be out of range. I then sent Lieut. Crosby on shore to demand the meaning of the white flag. The boat soon returned bringing Mr. Wiegell with a written communication from Samuel Barron, late captain in the U. S. Navy.

To all whom it may concern.
CAMP LYON, Chain Bridge.
Headquarters 3d Regiment Vt., Aug. 25, 1861.
Whereas authority has been given to recruit an additional number of able-bodied men to fill up the several Companies of the 3d Regiment of Vermont Volunteers in the service of the United States, to the maximum number—one hundred and one man to each—I have appointed a Recruiting Officer to recruit and rendezvous at Brattleboro, Vt., two hundred and ten able-bodied men, to be mustered into the Companies of their own choice, in the 3d Regiment, as said Brattleboro, on or about Monday, the 9th day of September next.

By order of B. N. HYDE, Lt. Col.,
Commanding 3d Regiment Vt.
W. F. COREY, 1st Lt. and Adj't.
All persons wishing to enlist for the purpose specified above, must present to the Recruiting Officer a certificate from a regular Physician or Surgeon, establishing their fitness for service according to rules and regulations established by law.

W. T. COREY,
1st Lieut. and Adj't.

The old established House of
A. M. BININGER & CO.

of 10 Broad Street, New York.

ESTABLISHED 1827.

would call the attention of all interested in the use of PURE WINES AND LIQUORS.

We are permitted to publish the following notices and recommendations of the articles we offer,—which, in all cases will be warranted to open as represented.

Boston, Dec. 19, 1860.

Messrs. A. M. BININGER & Co.,

Gentlemen:—I have had occasion to use, as you requested, a bottle of your "OLD LONDON DOGGIN," as sold in the purity of this city, and have made chemical analysis of this sample. It contains 42 per cent. of absolute alcohol, with odor and flavor of Juniper berries only.

On evaporation to entire dryness, this Gin is found to contain 142.100 ounces of saccharine matter per gallon, and this residual matter containing nothing else.

There is no adulterating ingredients or injurious matter of any kind in this Gin, and it contains the intrinsic merits of a pure article.

Respectfully, your obedient servant,
CHAS. T. JACKSON, M. D.,
State Assayer.

Boston, July 20th, 1860.

Messrs. A. M. BININGER & Co., 19 Broad St., N. Y.

Gentlemen:—We have repeatedly heard our customers express a good opinion of your popular bottled liquors, and can say that we have rarely met with articles for which a steady demand has so rapidly sprung up, as they are now standard goods with druggists throughout the east.

Yours truly,
GEO. C. GOODWIN & CO.,
Druggists, Nos. 11 & 12 Marshall St., Boston.

BURLINGTON, Vt., Aug. 20, 1860.

In my opinion, the Liquors sold by A. M. BININGER & Co., No. 19, Broad Street, New York, are unsurpassed in purity and reliability, and have made chemical analysis of this sample. It contains 42 per cent. of absolute alcohol, with odor and flavor of Juniper berries only.

On evaporation to entire dryness, this Gin is found to contain 142.100 ounces of saccharine matter per gallon, and this residual matter containing nothing else.

There is no adulterating ingredients or injurious matter of any kind in this Gin, and it contains the intrinsic merits of a pure article.

Respectfully, your obedient servant,
CHAS. T. JACKSON, M. D.,
State Assayer.

Boston, July 20th, 1860.

Messrs. A. M. BININGER & Co., 19 Broad St., N. Y.

Gentlemen:—I have had occasion in my practice, to use your Wheat Tonic, and have discovered that it would cure Diarrhea, even if it had assumed a chronic form.

If the intelligence is worth anything to you, I am sure it will be worth more to the public, for no family should be without it, especially in warm weather.

NATHANIEL HARRIS, M. D.

The House of A. M. BININGER & CO., 19 Broad Street, New York, have furnished quite a large proportion of the Liquors and Wines sold by the Town Agents in this County for the past year, and the Liquors and Wines so furnished have been pure and unadulterated and have given good satisfaction. In accordance with the Law in relation thereto, I would recommend said House to all who desire a pure article for Medicinal, Mechanical, or Chemical purposes.

HOLLAND NEDHAM,
Commissioner for Adulteration, &c., Vt.

April 24, 1861.

From the Home Journal.

It is worthy of remark, that this venerable House have made a specialty of supplying the wants of Druggists, Physicians, and Town Agents with their pure and wholesome liquors, and the fact that their list of customers embraces over four thousand Druggists, is conclusive evidence of their popularity with that respectable class of traders.

If this popular House was of recent date, and it was deemed expedient to extend its reputation by any display of public recommendation, it would be no difficult task to arrange in the most imposing form, thousands of endorsements as to the excellence and variety of their merchandise.

From the point of its first existence, more than eighty years ago, down to the present day, this establishment has maintained its well-earned reputation, the integrity of its financial obligations remain yet unimpaired, and the fidelity and promptness with which its numerous supporters have been served, furnish the best evidence that it has suffered no diminution, and that the quality of its staple articles have in no way been permitted to degenerate. If these considerations can be resolved into undeniable facts by that public which they have so long served, it will furnish for their sufficient encouragement to adopt as the future "coat of arms" the insignia of their native State—"Excelsior!"—Still higher!

MAILS IN MONTPELIER.

SOUTHERN and EASTERN mail closes at 8.00 a. m., arrives at 5.15 p. m.

NORTHERN and WESTERN closes at 3.15 p. m.; arrives at 9.30 a. m.

All matter for these mails must be in the office before the time of closing, to go the same day.

BALTIMORE arrives daily at 8.30 a. m.; departs every day on arrival of Southern.

DRAWFORD mail arrives daily at 10.00 p. m.; departs daily at 4.00 a. m.

ANTI-COSTIVE & TONIC
PILLS

A CANADIAN REMEDY

For Costiveness, Irrregularity and Debility of the Digestive Organs, Inducing Headache, Lassitude, Nervousness, General Prostration of the Mind and Body, Paralysis, &c.

A moment's reflection ought to convince a sensible man of the folly and danger of constantly dosing with Cathartic Medicines. The practice is pernicious and suicidal. An experience of forty years has taught me that the only healthy, permanent, and safe mode of cure is furnished by the use of Cathartics. The American people are fast becoming a nation of dyspeptics by their artificial modes of life. Drastic Cathartics increase the irritability, and prostrate the strength of the digestive organs.

The Pills now offered are especially designed to allay this irritability, and at the same time to invigorate and strengthen all the functions of digestion, while they are purely laxative. They are anodyne, tonic and laxative. They are so mild and invigorating that one is not reminded by any disagreeable effects that he has taken medicine. Business Men, Students, Professional Men, Females, and all persons leading a confined or sedentary life, should try them.

The undersigned Physicians, cheerfully certify to the high professional standing of Dr. Colby of Stansford, one of the oldest and best Physicians, and to the excellent qualities of his "Anti-Costive and Tonic Pills," which we have used in our practice, and highly approve.

Prepared by Dr. M. F. COLBY, Stansford, C. E., and
Derby Line, Vermont.

Sold where medicine is sold generally.

It is precisely what its name indicates, for while pleasant to the taste, it is revivifying, exhilarating and strengthening the vital powers. It also revivifies, restores and renews the blood in all its original purity, and thus restores and renders the system invulnerable to attacks of disease. It is the only preparation ever offered to the world in a popular form so as to be within the reach of all. So chemically and skillfully combined as to be the most powerful tonic, and yet so perfectly so as to act in perfect accordance with the laws of nature, and hence sooth the weakest stomach and tone up the digestive organs, and allay all nervous and other irritation. It is also perfectly exhilarating in its effects and yet it never followed by lassitude or depression of spirits. It is composed entirely of vegetables and those thoroughly combining powerful tonic and soothing properties, and consequently can never injure. Such a remedy has long been needed by a desponding and afflicted world, both by the thoroughly skilled in medical science and also by all who have suffered from debility; for it needs no medical skill or knowledge even to use that delicate follow-up, and it is a disease and lays the unguarded system open to the attacks of many of the most dangerous to which poor humanity is constantly liable. Such, for example, as Consumption, Dropsy, Bronchitis, Indigestion, Dyspepsia, Loss of Appetite, Faintness, Nervous Irritability, Neuralgia, Palpitation of the Heart, Melancholy, Hypochondria, Night Sweats, and all the ills and ailments of cases so fearfully fatal if untreated in time, called *Female Weaknesses and Irregularities*, *Acute Liver Disorders*, *Intoxication*, *Scalding*, *Incontinence of the Urinary Organs*, *Pain in the Back, Side, and between the shoulders*, *Prostration*, *Headache*, *Coughing*, *Emaciation*, *Difficulty of Breathing*, and indeed we might enumerate many more still, but we have space only to say, it will not only cure all the above, but prevent all attacks arising from Miasmatic Influences, and cure the diseases at once, if already attacked, and as it acts directly and positively upon the blood, it cures the Liver, the action, promoting, in fact, all the excretions and secretions of the system, it will infallibly prevent any deleterious consequences following upon a change of climate, and water, and hence all travelers should have a bottle with them, and all should take a table-spoonful at least before eating. As it prevents costiveness, strengthens the digestive system, it should be in the hands of all persons of sedentary habits, students, ministers, literary men, and all ladies not accustomed to much outdoor exercise should always have it with them, and will give an agreeable, pleasant, and efficient remedy against those ills which rob them of their beauty; for beauty cannot exist without health, and health cannot exist while the above irregularities continue. Then again, the Cordial is a perfect Mother's Relief. Taken a month or two before the final trial she will pass the dreadful period with perfect ease and safety. There is no mistake about it, this Cordial is all we claim for it. Mothers, then! And to you we appeal to detect the illness or decline not only of your daughters before it is too late, but also your sons and husbands, for while the former, from false delicacy, often goes down to a premature grave rather than let their condition be known in time, the latter are so often mixed up with the excitement of business that if it were not for you they too would travel in the same downward path, until too late to arrest their fatal fall. But the mother is always vigilant, and to you we confidently appeal; for we are sure your never failing affection will unerringly point you to Prof. Wood's Restorative Cordial and Blood Renovator as the remedy which should be always on hand in time of need. Of J. WOOD, Proprietor, 414 Broadway, New York, and 114 Market Street, St. Louis, Mo., and sold by all good Druggists. Price One Dollar per Bottle.
